Dear Sirs:

RE: Patent: System Method and Article of Manufacture for a
 Visual Self Calculating Order System over the World Wide Web

 Priority: U.S. Provisional Application Ser. No. 60/225,845
 filed on August 11, 2000.

Applicant: Doug Morrison

Enclosed is the following for the filing of the above noted patent:

1. Postcard
2. Utility Patent Application Transmittal
3. Fee Transmittal for FY 2001 -- 2 copies
4. Credit Card Payment Form -- \$983.00 by VISA
5. Modification to Claim 16
6. The Specification in the preferred order
 - Written Description -- 59 pages
 - Claims -- 72 (8 pages)
 - Abstract -- 1 page
7. Drawings -- 38 pages
8. Declaration For Utility Or Design Patent Application -- 2 pages
9. Information Disclosure Statement By Applicant
 - Listing -- 6 pages,
 - PTO/SB/08B -- 2 pages
 - Copies of IDS citations -- 12 US patents., 6 Foreign, 6 other ref.

I look forward to the confirmation of the receipt of the Application, but if you should require anything further please contact me.

Futher to 5 above, US Patent 6,189,137 Feb. 13, 2001 by Hoffman discusses short comings in JavaScript and patented granted for "include" function. HTML and other derivatives of SMGL lack a simple adjustment for quantity. On this basis, my claim 16 is stated as an independent claim as it has practical application to other e-commerce applications improving their efficiency also. However, I am willing to consider the modification listed in 5 above. Please note, I have included US Patent 6,189,137 in the IDS but it is not listed in my specification as it is past my priority file date.

This is my first patent so the procedures are new to me and I have attempted to comply with your requirements fully. For this application, the description and claims completely describe what was invented. Subsequent to this application, I will be filing using the PCT for other countries. I am planning to obtain with an International Search Report, and a Preliminary Examination. Dependent on timing, this material, if permissibile, may be available for your consideration.

Finally, although the written description and drawings fully describe the invention, the invention is dynamic and perhaps more easily comprehended by an actual demonstration. If requested, I can provide a computer screen movie using Microsoft Camcorder that can be run as standalone executable and readily transferred to you via a web page on the Internet.

Thanking you in advance for your time and consideration.

Yours truly,

Douglas C. Morrison
